Silicon Bronze	“	“	“
Niobium Titanium	“	“ + PyreML	“
Phosphor Bronze	“	“	“
Silicon Bronze	“	“	“

The table shows some of the woven looms that we have made. We are able to combine these into complex connectorised harnesses including fibre optics. Please contact us for details.

PE – polyester resin; FEP - fluorinated ethylene propylene, PFA perfluoroalkoxy, PyreML - polyimide
